OIL NEWS IN THE LOCAL FIELD

DEVELOPMENTS CONTINUE AT A STEADY PACE IN THIS VICINITY.

Well No. 9 is being started on W. M. Savage's farm near Fallsburg. There is room for 30 wells on this farm and the Big Blaine Oil Company is drilling without cessation. It is said the entire farm will be developed as rapidly as the contractors, Miller & Holt, can drill the wells.

A well is ready to be drilled in on the Tom Belcher farm on the West Virginia side of Big Sandy river, opposite Zella.

Well No. 2 on the farm at Potter station is to be started soon. This is on the land involved in a lawsuit recently decided in favor of the Rice and Hatcher heirs.

A well is to be drilled on the farm which belonged to George Carter, deceased, near Yatesville. The machinery is being moved onto the place. The Louisa Coal, Oil & Gas company, which has taken over a considerable acreage of leases acquired by Col. Labbee, of Chicago, will proceed with development as soon as it can get ready. The lands adjoin some of the producing territory in the Yatesville neighborhood.

A compressor plant has been installed near Tom Hays' place, to facilitate the handling of oil in the pipe lines.

THE THREE MILE ROAD.

In County Court next Monday the question of the route for the county road from the Three Mile bridge to Louisa will be considered. Two routes have been surveyed. One uses the old Lick creek road a part of the way, and the road which formerly led to the Johns camping grounds. This involves very little cost to the county. The other route is a somewhat crooked course and is estimated to require about \$1400 worth of fencing, to be paid for by the county.

The work of flooring the bridge at Three Mile has not been completed. The ties have been turned down on the side, but some additional lumber is needed at the ends. This is necessary before the bridge is available for wagon traffic.

DR. MCCLAY CLAIMED BY DEATH.

Dr. J. B. McClay, 61, and pastor of the First Methodist church in Martin's Ferry, O., died last Friday at his home after a long illness. Dr. McClay was pastor of the Ashland Methodist church a few years ago and served as district superintendent of the Ashland District and was considered one of the most eloquent preachers in the conference. A few years ago he conducted a revival in the Methodist church in Louisa.

He is survived by his wife and two sons.

CAMPAIGN EXPENSES.

At the last November election the Democrats expended a total of \$62,840.70, and received \$59,506.81. The Republicans expended \$52,295.11, and received \$50,981.01. The Democrats expended \$13,442.57 for advertising, printing and postage, \$7,890 for pay roll, \$2,552.43 for maintaining headquarters, \$1,962.43 for speakers' expenses on the stump and \$20,264.35 for organization. The Republicans spent for advertising, printing and postage, \$7,098.19; organization, \$38,254.33; headquarters, \$5,155.24, and pay roll, \$1,786.45.

NEW COAL OPERATION.

The Nats Creek Coal company near Richardson expects to begin shipping coal about the first of next month. The work of driving entries is going along rapidly and the mile of railroad line has been graded and is ready to receive the track. A considerable quantity of coal is already stocked on the yard. The difficulty of securing mine cars and other supplies is delaying the operation to some extent. F. L. Stewart is in charge of this enterprise.

CHILD DEAD.

Lucille, the sweet ten-month-old baby of Prof. and Mrs. W. L. Jayne, of Pollard, died Wednesday morning of pneumonia. The funeral services were conducted Thursday morning at 9:30 o'clock at the house—Ashland Independent.

B. & O. R. R. ON BEAVER.

Work on the B. & O. railroad line up Beaver creek in Floyd county has made good progress this fall. The winter weather will hinder the work very materially. The road will be completed some time next year. A very fine coal territory will be opened by this road.

Mr. Mitchell Dotson, of Lincoln Co., Ky., son of A. J. Dotson, formerly of this county, was robbed and his head burst by a negro last Saturday at Stanford, Ky. He was employed by Green Gooch, a cattle merchant of that place. Mr. Gooch was in a barber shop and had left Mr. Dotson herding the cattle. The negro slipped up behind him and struck him and fled. He did not have time to rifle Mr. Dotson's pockets on account of policemen and others who were near.

Mr. Dotson is now in the hospital at Danville, Ky., where he has had several pieces of his skull removed and braided three lobes of the brain. The doctors report very little chance for his recovery. E. S. Dotson his brother is with him—Prestonsburg News.

THE MAGOFFIN COUNTY FRAUD CASES IN COURT

FIFTY-SEVEN PERSONS UNDER INDICTMENT FOR MISUSE OF MAILS.

The United States Court in session at Catlettsburg took up the 57 cases against Magoffin county persons charged with using the mails to defraud, and continued them until the first Monday in July, a special term being called for that time to try these cases.

Magoffin county has a lot of good citizens and it is no reflection upon them to say that it also appears to contain more industrious rascals along certain lines than any other county in the whole county. For years they have carried on fraudulent practices that have resulted in defrauding merchants and manufacturers out of thousands of dollars worth of goods. The postoffice inspectors have spent a great deal of time in trying to land these fellows, but usually they have kept barely clear of a violation of the postal laws. Finally they grew bolder and in on the scheme and used it for reference with gross violations.

Almost every line is included in the swindles and nearly all the large cities have suffered. It is estimated that \$50,000 worth were obtained without paying for any.

The "State Bank of Brownlow" and "The Rex Bank" were fictitious banks used for reference by some of the swindlers. Stationery and a typewriter was all the assets possessed by the banks, but that was sufficient to satisfy the wholesale dealers and manufacturers as to the reliability of those who were in on the scheme and used it for reference. The goods obtained without cost were sold at any price obtainable, it is alleged.

One man even offered to sell a pair of \$4 shoes to a U. S. inspector, it is claimed. The inspector tells how he was riding along the creek when accosted by an elderly man carrying several pairs of shoes over his shoulders. The inspector, after declining the man's offer to sell him a pair cheaply, asked him where he got the shoes and how he could sell them at such a low cost. "I can't hear very well," the old mountaineer replied, and passed on his way.

The federal agents encountered innumerable difficulties, in locating some of the mountaineers. When they asked for any particular person they were told he was "up the creek or down the creek" or "he's gone over into Morgan county." The very telephones obtained on credit from two big manufacturing concerns were used to give warning of the approach of suspicious strangers, it is claimed.

One \$2,000 "wholesale establishment" turned out to be a log cabin with one room and an attic. Some mountaineers, it is claimed, would represent themselves as owning real estate, possessing goods and live stock, whereas a dozen of them on a promissory note would not make the note worth \$100, one government man asserted.

One firm which sought to make collections was itself sued for sending impure products into inter-state traffic, it is claimed.

THE ANTI-PASS LAW.

There is every prospect of a warm legal battle in Kentucky over the anti-pass law which goes into effect in the Bluegrass State on January 1. This law is said to be more drastic than any state law now in force against the issuing of free transportation. No official of state, county or city, whether he is an employee of the railroad or not, is entitled to free transportation. Hundreds of trainmen, as well as office men, hold minor state, county or city positions in Kentucky. Some are Mayors in small towns. Even railroad police receive commissions from the state and come under the law, according to some interpretations of it, while a notary public cannot ride on a pass after January 1, although he may be a high official of a road. Scores of notary public commissions have been turned back to the state.

MORE COAL LAND SOLD.

Hazard, Ky., December 4.—Besides the large deal of the Kentucky River Coal Corporation, through its allied company, the Stag Coal company, of Virginia, last week, the Swift Coal and Timber company entered the Carr's Fork district and took up some very valuable tracts, including what is known as the John T. Horn lands, the Eli Whitaker lands and other tracts, aggregating more than 1,000 acres. The Kentucky River Coal Corporation has bought out the Ben Stacy lands, on Lott's creek, about 400 acres, all underlaid with No. 4 coal.

George R. Schmauch, a well-known contractor of Huntington, W. Va., was severely injured about noon Friday in that city, when he fell forty feet from a scaffold at the Standard Ultramarine plant, the capacity of which is being doubled by the addition of new buildings. Oscar Elkins, a laborer, was also in the accident, but was less seriously injured. Mr. Schmauch was taken to the Huntington General Hospital. It is believed Mr. Schmauch, unless internal injuries were to develop unfavorably, will recover.

PROGRESS OF WORK ON THE NEW CHURCH

COMMITTEE HOPES TO PUSH THE BUILDING STEADILY TO COMPLETION.

A few more days work will complete the frame work on the roof of the new M. E. Church South building, and the contractor who is to put on the roof and the metal work has been notified to get busy next week if the weather will permit. It is to be a five-ply composition roof of the best quality.

Additional stone cutters have been engaged to finish the four large columns for the front.

The brick work is finished in good style. The walls are handsome and well constructed. The building committee is well pleased with the plans provided by the architects, as nothing has been overlooked that would give strength where needed and security against trouble later on. The foundation is the best that can be built and every precaution was taken against dampness in the basement.

The glass for the basement windows is here and will be put in place as soon as the sash arrives. W. H. Billups will probably plaster the building. The basement will be plastered first and will be used for Sunday school and church services at the earliest possible time.

Contributions are still coming in, but there is plenty of room for more. A complete list of the amounts received and the names of the contributors will be published later on, after the collections have been made in full.

The art glass proposition is as yet unsettled. The committee has had a number of designs under consideration. At a meeting held yesterday it was decided to January 15, at two p. m., for a final meeting to decide this proposition. All dealers are being notified to have their representatives and designs here at that time. Four persons have already asked for memorial windows and others who want them are requested to notify the committee before January 15.

BLAME IT ON THE WAR.

The tonsorial artists of Louisa have formed a trust and raised the price of shaves to 15 cents, thus bringing the town right up-to-date. Joe Botts and Ben Salver refused to sign the agreement and will fight whiskers at the old price. The European war is blamed for the advance. A lot of close shaves are going to waste in Europe.

QUARTERLY MEETING.

The First Quarterly meeting of the Methodist Episcopal church will be held next Saturday and Sunday. The Quarterly Conference will be held at 7 p. m. Saturday and the District Superintendent will preach and administer the Sacrament of the Lord's Supper at the regular preaching hour on Sunday morning.

An individual communion service will be used.

ENTIRE FAMILY DIES.

Joseph Gannon, age 23, died in Iron-ton Tuesday, as the result of a kick in the eye last week while at work at Rosedale, W. Va. His death is the third and last of his family within five months. His baby boy died in August and October 24 his wife died of typhoid fever.

A COLORED FORGER.

Arthur Fleming, colored, is in jail here to answer an indictment for forging an endorsement of Mrs. Ella Hays on a check for \$25, two years ago. Deputy Sheriff H. B. Thompson brought him from Columbus, where he had just completed a term for a similar offense. Fleming is a Grayson negro.

M. E. CHURCH BAZAAR.

Homer Yates and Geo. Wm. McClure, who are attending school in Delaware, Ohio, are expected home to spend the holidays. School friends will accompany them for a few days stay.

CARTER COUNTY SPURNS AID OF STATE.

Frankfort, Ky., December 11.—Carter county has repudiated the state aid plan under which the road bonds of that county were voted and is now undertaking to build the roads on its own account with the funds voted for state aid road building. This statement was made to-day by Nat B. Sewell, State Inspector and Examiner, in a report to Governor Stanley. Sewell says that Carter county bears the distinction of being the only county in the state that assumes that it can do better in building roads without the help of the state than with it.

A LOUISA YOUNG MAN SUBMITS TO OPERATION.

Earl Justice submitted to a severe operation in a hospital at Cincinnati last Friday and is reported to be doing well. His father and mother, Mr. and Mrs. S. J. Justice, were with him. It is hoped and believed the operation will relieve him of a serious trouble of long standing and restore him to complete health.

UP GOES SUBSCRIPTION; WHITE PAPER COST CAUSE.

Cadiz, Ky., Nov. 30.—The Cadiz Record announced this morning that, owing to the great advance in price of print paper, it would increase its subscription price to \$1.25 per year after January 1. The Record has been in existence thirty-five years, and its price has always been \$1 per year.

WILL PROBE IDIOT CLAIMS.

Frankfort, Ky., Dec. 12.—State Inspector and Examiner Nat B. Sewell purposes, he says, inquiring into pauper idiot claims. He has discovered and will call to the attention of the Auditor's department one idiot in Clinton county for whose maintenance \$75 annually is being drawn, although the parents are not paupers, he says. The State pays out \$170,000 annually for their maintenance. Every county has from one to 182 pauper idiots drawing maintenance.

In a report on Magoffin county he recovered \$804.80. One claim of \$900 against former Sheriff Robert Reed is contested by Mr. Reed, who said the capias and executions for these fines and forfeitures had not been given to him.

WINTER TERM OF K. N. C.

The winter term of Kentucky Normal College will open on Monday, January 1. Prospects are fine for a large attendance in all departments. The law department just established will be under the direction of Prof. James M. Finlay, a graduate of a leading college.

The business department is in the hands of competent teachers and will have a large number of students.

The Savoy hotel has been leased for the exclusive use of boarding students and arrangements have been made which give them a rate of \$2.50 per week for room and board.

DAWSON KNOWS OLD LAND MARK.

V. V. Dawson told our representative that he knew where the mark for which many had been looking was located and the tree which was marked by George Washington many years ago had stood on the banks of the Big Sandy river on a farm formerly owned by O. D. Botner in Lawrence county and later by the Ash heirs. Mr. Dawson said that he bought this popular tree for \$12.00 and sold it to James Johns for \$20.00 who at that time intended to show it at the Centennial but later sold it to a lumber company.—Ashland Independent.

RESOLUTION OF RESPECT.

Brother David L. Hanson was born in Coles Co., Illinois, May 18, 1833, and died at his home near Fort Gay, Wayne Co., West Va., November 27, 1916, aged 83 years, 6 months and 9 days. He was raised in Russell Co., Virginia, and served four years in the Confederate Army under Generals Wheeler and Forest and after the close of the Civil war he moved to Wayne Co., West Va., near Fort Gay. He was made a Master Mason in Vinson Lodge No. 66, November 17, 1879 and was a true and faithful member. He was buried near his home on Big Hurricane by Vinson Lodge No. 66 with the usual Masonic honors.

Now Whereas, The Almighty Father in His wisdom has seen fit to take from us our beloved brother and transfer him from this imperfect to the All Perfect Glorious and Celestial Lodge on High, therefore be it Resolved,

That in the death of brother Hanson our lodge has lost a true and faithful member, the community an honest, upright citizen and his family a devoted husband and father.

Resolved 2nd, That we extend to the bereaved family our deepest sympathies and commend them to the care of Him who doeth all things for the best.

Resolved 3rd, That these resolutions be spread upon the minutes of the lodge, a copy be sent the bereaved family and a copy furnished the Wayne and Big Sandy News with a request to publish them.

Kentucky mountain folk are not "mixers." They themselves call the songs they sing in their backwoods sections "lonesome tunes." This graphically sums up the

A FEW FACTS ABOUT COLDS WORTH KNOWING

The phrase "taking cold" has long been employed by the laity to express a series of changes taking place in the human system, supposedly due to direct exposure to cold; but modern scientific investigation has exploded this erroneous idea and proven beyond doubt that cold per se, is only an exciting factor and NOT the real cause in the process. It is a well known fact that savages and white men sojourning in cold climates and out of doors, almost never suffer from colds, and that it is only after they return to the environments of civilization, where people dwell in closed and badly ventilated houses and freely commingle with each other that colds become an incident of frequency and great danger.

Modern bacteriology has plainly pointed out the reason for this; viz: That the direct cause of all colds is certain microscopic bodies called bacteria; or in plain words, germs.

It can be easily demonstrated that the upper Air Passages (Nose, Throat and Larynx) habitually harbor several varieties of these disease producing organisms, chief among which is the deadly Pneumonia bacillus, and that they are spread from person to person by direct contact where crowds are gathered in badly ventilated lecture rooms, theatres, churches or homes. These germs may be perfectly dormant in the healthy air passages until incited to activity by some lowering of the individual's resistance, when, lo! they break forth with increased violence and the so-called Cold results.

Whether this Cold will prove a simple catarrh of the nose and throat of but short duration and mild character; whether dread Pneumonia, with its sharp and fatal sting, shall be the sequence; or whether the blighting blast of the White Plague shall sit spectre-like upon its victim, no one can foretell; hence, the great importance of treating all colds, however mild, promptly and energetically. In Urban populations the services of a skilled physician is always within call, but in rural districts, distance and inclement weather often act together to forestall the doctor's timely aid, so that valuable time is in this way lost. It was particularly for this latter class of sufferers that MEINHARDT'S GERMAN COUGH REMEDY was invented.

It is a pleasant and palatable composition of strictly pure and well selected drugs, each a power, but in this happy combination a potent remedy to relieve coughs and colds. Trial will convince the most skeptical of its great efficacy in relieving the ailments for which it was specifically intended by the Manufacturer. In all cases of acute rhinitis, laryngitis, tracheitis and bronchitis, MEINHARDT'S GERMAN COUGH REMEDY, taken according to directions on the label, will speedily give relief, and if persevered in, will, as a rule, completely restore to normal the diseased mucous membranes.

WEST VIRGINIA ITEMS OF NEWS.

D. Hatfield. The reason for Mr. Goff's withdrawal from office was not stated. In the event of the resignation being accepted, a successor could be chosen only by a special election called by the Governor.

Rev. Jerry W. Harmon, of Wayne-co., recently pastor of the Pleasant Valley Baptist church, has accepted the call tendered him by the Walker Memorial church of Huntington. Mr. Harmon will enter his new relationship on January 1.

On Saturday work was begun for the first time at the operation of the Rum Creek Collieries & By-Product Company in the Logan field.

Charleston, W. Va., Dec. 11.—M. P. Shawkey, superintendent of free schools in West Virginia, today certified to the state auditor a statement of apportionments of the state's supplementary aid to the small districts of several counties which are unable, through the ordinary channels, to maintain six months of free school and pay the minimum salaries prescribed by law. The amount so distributed will be \$75,000 for teachers and \$15,000 to supplement building funds.

Superintendent Shawkey announced that the state this year is able to pay 61 per cent of the demands for aid to teachers' funds. Jackson will receive the largest amount of any county, with Greenbrier a close second, each receiving a little more than \$6,500. Hampshire is third with \$5,400. Lincoln-co. receives the smallest amount, or \$9.

OBITUARY.

On December 5, 1916, the death of a well known citizen of this place, Harlan, son of Leander and Mollie Swetnam. He had been married only a short time and had gone to Jenkins to live, and while there he became a victim of appendicitis. On December 1 a message came announcing his illness and requesting the presence of his parents. Mr. Swetnam left at once for Jenkins and arrived at the bedside of his suffering boy the following morning where he remained until death relieved him of his suffering.

The entire community was deeply moved with grief at the news of Harlan's death as he had so recently been in our midst, healthy, strong and cheerful, but when his lifeless body was brought back to the home he loved so much and where he had so recently said "good by" to loved ones when in health the scene was certainly one of tears and grief. Harlan was a boy whose genial and kind disposition commanded the love and respect of those with whom he associated and for those admirable traits that won for him so many friends. He is the more painfully missed by all who knew him.

Harlan leaves to mourn for him a loving wife, father, mother, one brother and five sisters and I would say to them, do not mourn for him as those that have no hope for Harlan is at rest.

A short time before death relieved him of his suffering he said he was willing and ready to go. But said if he got well he would live for God and his country. But he is dead and in the starless voiceless grave. His body rests to awake some day to a nobler, grander life. His body was laid to rest in the Swetnam cemetery. Funeral services were conducted by Rev. Hewlett A. COUSIN.

OBITUARY.

Death has again visited our neighborhood and this time it has left its shadow on the home of Mr. and Mrs. Wm. Thornsbury. Their son, Grover, after an illness of several months departed this life on the night of Dec. 7, 1916.

Early in the spring Grover's left eye became noticeably affected and having consulted with physicians of the surrounding country and towns to no avail. He was advised to go to Cincinnati where he took the radium treatment for cancer, during the summer and fall, but as he steadily grew worse he gave this up and in November he was taken to the Riverview hospital where he was operated upon. But he was still no better and they brought him home where all the loving attention that could be given was given him during his remaining illness. I was at his home on the night (a few weeks before his death) that he was converted. Bro. Harvey and several of his close friends were there. For several days he had been praying but he was not satisfied until that night when he lay his fears aside and "anchored his soul in Love Divine." After he was converted he asked us to sing "The Tempest Rock," and joined us in singing, afterwards telling us he "was guided on that Rock" that he was going all the way with God.

Never was suffering more patiently borne, his answer to inquiries always being "I have nothing to complain of." Grover was a general favorite in the neighborhood and while we all will miss his smile and cheery greeting we know that he has passed beyond where there'll be no suffering, paid for death.

The deceased left a father and mother, four brothers and three sisters, two brothers and one sister having passed on before.

To the bereaved family we extend our heartfelt sympathy. L.J.F.

FAMILY AVOIDS

SERIOUS SICKNESS

By Being Constantly Supplied With

Theford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of his place, "with sick headache, and stomach trouble."

Ten years ago a friend told me to try Theford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught.

Theford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day.

"Goodnight Corns!" We Use "Gels-It!"

3 Drops in 2 Seconds. That's All "GELS-IT" Does the Rest. Never Fails.

"Really, I never could see how some few people use the most difficult and painful way they can find to get rid of corns. They'll wrap their toes up with bandages into a package that fills their shoes full of feet and makes corns so painful they've got

to walk sideways and wrinkle up their faces. Or they use salves that creep right into the toe and make it raw and sore, or they'll use plasters that make the corns bulge, or pick and gouge at their corns and make the toes bleed. Funny, isn't it? "GELS-IT" is the simple, modern wonder for corns. Just put 3 drops on. It dries instantly. No pain, fuss or trouble. The corn, callus or wart loosens and comes off. Millions use nothing else. "GELS-IT" is sold and recommended by druggists everywhere, 25c a bottle, or sent on receipt of price, by B. Lawrence & Co., Chicago, Ill.

"Mary" the famous fox hound of Dr. Thos. Sladen, carried off first honors at the recent bench show of the National Cox Hunters' Association held at Columbia, Tenn., winning first prize. TUSCOLA.

It is true that we have a class of persons that wouldn't work for love or money as long as the open game season lasts. They prowled day and night in search of game and defy the law. They shoot indiscriminately and often wound or kill people's stock. They have no license for hunting and they never ask permission to hunt on the land where they hunt. Some days they will shoot away fifty cents worth of shells and bag twenty-five cents worth of game. Often their toes are exposed to frosts and sunshine and the women folks cut the wood for the fire. They curse our statutory laws and our land owners alike and say that they are oppressed by both. They never attend church or Sunday school unless to create a disturbance. They are found in every neighborhood and they are declared a perfect nuisance but the problem remains yet to be solved what to do with them. Their only Bible is their gun and dog and ferret with which they would share their last crust.

Oscar Boland Says:

—The editor of this paper tell of a young farmer boy who took a business course, entered upon a banking career, and is today vice president of one of the largest banks in Cincinnati.

This is not unusual. Thousands of young people have done as well or better. Thousands are doing so today. Thousands will start in 1917. Will you be one of THEM?

I am well acquainted with a young man who took a business course and raised himself in a few years to the position formerly held by his boss which pays \$250.00 per month.

Any older person who is acquainted with affairs in the business world to day will testify that thousands of high salaried positions are now held by men who started as bookkeepers or stenographers.

Any person who has finished the seventh grade is able to take a business course as all are given Arithmetic, English and whatever else they may need to prepare them for work.

Are has nothing to do with a person's qualification. A girl of thirteen in Birmingham, Ala., was stenographer for a firm of lawyers.

For ten years I have taught the commercial branches, and I know by experience and observation that a business course has been the making of thousands of young men and young women, boys and girls.

An organization is being perfected by the KENTUCKY NORMAL COLLEGE, the purpose of which will be to secure positions for all worthy graduates and to seek promotion for those who prove worthy of higher salaries.

I want all ambitious boys and girls to begin this course JANUARY 1, 1917 as the WINTER TERM of the K. N. C. begins on that date.

Germany has made a peace proposal, to be taken up through neutral nations. The sentiment in London seems to be against it. Germany probably figures that she will gain in popular favor by making a plea for peace, thus shifting the responsibility for continuing the slaughter. Also, the masses in Germany are said to be sick of war and are murmuring against it. If the allies refuse the peace offer the Kaiser will be in a better position to urge his subjects on in the bloody ordeal. It is said Germany will propose that the war be settled on a basis of restoring lines as they were before the war. If this be true, think how useless the awful bloodshed has been? Millions of lives and billions of property destroyed for naught.

The curse of whiskey has been again brought home to many local people by two tragedies that have occurred lately. In both instances liquor brought the terrible ending to their lives and the awful sorrow to their families and friends. Yet, there are many citizens who vote to permit its sale. Henry Watterson, bright and erratic man of prominence, uses his vigorous pen continually in favor of the murderous stuff though near eighty years of age and tottering on the brink of the grave. He delights in quoting himself on this foolish phrase, coined years ago: "No Democrat can be a Prohibitionist!" But the fact stands out like a sore thumb to the liquor people that a majority of Democrats are prohibitionists. Watterson has not influence enough to drive any prohibitionists out of the party nor any Democrats away from the dry side by his ravings. Every community has the demonstration of the liquor curse brought home to it, sooner or later, and no pet phrase or frantic declaration from any liquor man can have any weight against the awful evidence that confronts us day by day.

THE HOME CIRCLE AND ITS INTERESTS.

Column Dedicated to Tired Mothers as They Join The Home Circle at Evening Tide.

Patronize Home Stores.

Holiday time is nearly here and you will want to purchase many things for your friends and for the little folks. That is the true spirit of the holiday season. It is a glad, joyous, festive season, a time when good will prevails all over this earth for christian civilization has fastened its festoons from every nook and corner of the sphere. Where christianity goes the spirit of Yuletide is born. Begin to think of some deserving or needy person to whom your generosity should be spread.

The above will surely appeal to ninety-nine out of every hundred. Then why not resolve to make your purchases of the home merchants best your presents savor of affection? You will show your home merchant the greatest of courtesy and he can rest after hard labor with the assurance that his existence in the community has at last partially come into its own. He has purchased many beautiful things as well as useful articles he is going to offer you, and he demands the earnest inspection of all the shoppers. You owe the home stores a visit of inspection before sending your money out of town to some merchant prince, filling his coffers, when in turn he cares nothing farther about you and never returns one cent of the investment to better your surroundings or home conditions. Your home is your blessed resort and it can only be made better by building up and helping its surroundings. Let's get this motley 1916 sentiment garnered down to home conditions. All will enjoy the holiday season more congenial, and all will save money by so doing.

A Happy Christmas to grown people and a Merry Christmas to the children! And let it be a happy Christmas; for that one day put away worries and disagreeable feelings and enter into the real spirit of Christmas, which is to give happiness into some human life. It is not in the giving of presents alone that is the true Christmas; it is in bestowing kind words, kind looks and smiles where there is

MEADACHE

Is one of the greatest sources of weakness. Have many causes, day after day, than mere racking, strength-sapping pain without thought of its origin.

The Cause is never brought by the impact of sudden shocks, but by the gradual wearing of the system.

Remove the Cause: all headaches are caused by defective circulation, prevent glasses all distressing pain would vanish.

We Examine Your Eyes thoroughly, scientifically, and give you the best of all advice, and guarantee satisfaction when given.

Your Eyes deserve specialized care. That is why I devote my entire thought and effort to Exe examination and the fitting of Glasses, just a little better than elsewhere.

Most Eminent Medical Authorities Endorse It.

Dr. Eberle and Dr. Braithwaite as well as Dr. Simon—three distinguished authors—agree that whatever may be the disease, the urine seldom fails in furnishing us with a clue to the principles upon which it is to be treated, and accurate knowledge concerning the nature of disease can thus be obtained. If backache, scalding urine or frequent urination bother or distress you, or if uric acid in the blood has caused rheumatism, gout or sciatica or you suspect kidney or bladder trouble just write Dr. Pierce at the Surgical Institute, Buffalo, N.Y.; send a sample of urine and describe symptoms. You will receive free medical advice after Dr. Pierce's chemist has examined the urine—this will be carefully done without charge, and you will be under no obligation. Dr. Pierce during many years of experimentation has discovered a new remedy which he finds is thirty-seven times more powerful than lithia in removing uric acid from the system. If you are suffering from backache or the pains of rheumatism, go to your best druggist and ask for a 50-cent box of "Anuric" put up by Dr. Pierce. Dr. Pierce's Favorite Prescription for weak women, and Dr. Pierce's Golden Medical Discovery for the blood have been favorably known for the past forty years and more. They are standard remedies to-day—as well as Doctor Pierce's Pleasant Pellets for the liver and bowels. You can get a large trial package for 10c. of any one of these remedies by writing Dr. Pierce.

Doctor Pierce's Pellets are unequalled as a Liver Pill. One tiny, sugar-coated Pellet a Day. Cure Sick Headache, Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the Liver, Stomach and Bowels.

OBITUARY.

The morning of November 22, 1916, the white winged messenger came to Zaida and took James Stewart up to heaven. He was 57 years, 10 months and 13 days old and was one of Lawrence county's best citizens, a good husband and kind father and neighbor. He will be missed by his many friends, dear wife and children, but thank God heaven gains by our loss. The writer has known the deceased for 40 years and knew him to be sober, industrious, kind hearted, loved and honored by all who knew him. We visited his home last December and learned that he was living a consecrated life. Oh, how death spreads his withering winter arms.

BUCHANAN.

Mrs. Elizabeth Vaughn, the daughter of W. E. and Pauline Wellman, departed this life Nov. 17, 1916. She left a request for your writer, and Bro. Dawson, our preacher in charge, also a close relative of the Wellman family to attend her funeral. We were both present. I think the reason she wanted my presence, was account of me being her Sunday School Superintendent for several years.

In the year 1903, during a series of meetings held in a small hall over a blacksmith shop at Buchanan, there was a great revival among the S. S. children. Twenty-five were converted. Lizzie Wellman was one of the number. Bro. Hall was our preacher in charge at that time.

After that the Wellman family moved to Catlettsburg and went into the hotel business and like hundreds of people who go to live in the towns and cities, Lizzie came in contact with many things, well calculated to lead young people into many of the common vices of this life. Her tendency was to drift along with the common current. Quite early in life she married Mr. Vaughn, to them were born two children and at her death one was an infant and the other quite young. Her health began to fail, and she realized that she would soon be called to the great beyond. She felt that she was not ready to meet her God in peace, she had wandered away, but she was not willing to surrender all to the enemy of souls, but like the Prodigal Son, she arose and went to her Heavenly Father, and confessed her sin of backsliding, and pleaded for his pardon. God heard her cry and saw her tears and accepted her back to his fold and she was made to rejoice and gave him all the praise. J. F. H.

An Announcement and an Invitation of real importance to you!

WE are pleased to announce that we have contracted to sell the Maxwell Motor Car in this territory.

We have selected the Maxwell because we believe that it comes nearer to being the ideal car for the average family than any other on the market.

We were asked by various manufacturers to represent them in this territory, and before we made a decision we considered them all carefully, comparing the cars point by point, and making sure of the right choice, because you realize that taking the agency for a car means the same to us as the buying of a car does to you.

And we believe it is worth while for us to give you our reasons for the decision we made.

First we found the Maxwell complete—in every possible detail. The engine is modern, simply built, yet extremely powerful and durable. The car is light in weight, but sturdily constructed. There is an abundance of speed. The operation of the car is simple and easy. The light weight and great power, of course, mean economy in gasoline and oil.

Point by point the Maxwell is equal or superior to most cars selling for a few hundred dollars more. There is style, plenty of room for the full number of passengers which each model is rated to carry, and unusual comfort. We were gratified to find these features so pronounced in a low priced car.

The equipment is also complete. There is electric starter and electric lights, demountable rims, one man top, rain-vision windshield—everything the motorist needs for convenience and comfort.

And so when we found how the Maxwell compared in all these points—then considered the price of \$595—several hundred dollars lower than any other car offering the same advantages, we were satisfied that it was the best car to sell, because it must be the car that people will want.

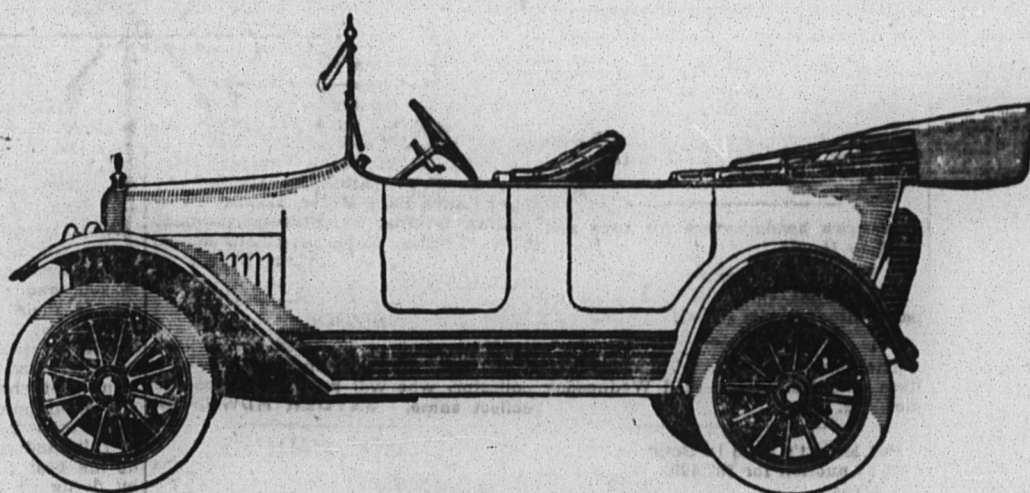

We are fully equipped to give prompt and satisfactory service to Maxwell owners—and we are in a position to make immediate deliveries. We will tell you more about the Maxwell in future advertisements—but meanwhile we invite you to visit our salesroom—and arrange for a demonstration at your convenience.

We are enthusiastic about the Maxwell—but no more so than you will be when you are acquainted with it.

MUTT

ULYSSES.

Frank Lyons, formerly of this place, died December 3 of pneumonia at his home on Muddy Branch in Johnson county. He was working in the mines when he took sick. His remains were brought back to Lowmansville for burial. He is survived by his widow and four children. He was a good citizen aged 40 years. We regret his death very much.

Charles George, son of John George of Henrietta was seriously hurt last

Thursday while working at R. H. Murray's saw mill at Chestnut. He accidentally came in contact with some of the machinery which tore the flesh from the bone of his leg for eight inches by 1 1/2 inches wide. Had it not been that he caught a post and held fast while his clothing was being torn off of him he would have been killed. Dr. Wray of Richardson was called and dressed and sewed up the wound and he is doing as well as could be expected.

The stork has been very busy in this locality recently. He called at the home of Charley Burton and wife and left them a fine boy, and to David Bevins and wife, a girl, to Balle Bowens and wife, a girl, to Brack Davis and wife, a boy, and to George Hannah and wife, a boy.

Moving seems to be the order of the day here. Lena Pack has moved from this place to his farm at Charley. Mrs. Alice Boyd has moved to her home just vacated by Lena Pack. John Beasley who recently arrived here from London, Ohio has moved to H. W. Williams' farm at Borders Chapel. Merida Bevins has moved from Whitehouse to Alex George's farm on Lost creek.

Alfred Chandler is moving back from London, O., but will locate at Ashland.

A series of meetings closed at the Walnut Grove church here last Sunday. The meeting continued over two Sundays. Rev. G. H. Young of this place did most of the preaching. He was ably assisted by Revs. Williams and Vanhoose. Two were converted and the church was much benefited and built up in the faith which Rev. Young so earnestly tried to instill into the minds of his congregation.

We don't think such earnest efforts and sermons of such rare ability will fail to produce much and lasting good.

North Stapleton took a bunch of fine cattle from here to Johnson county Monday.

FRENCH GIRLS FEEL

WAR'S WORST BURDEN.

Paris, November 11.—The problem of what to do with the young French girl of today and how to secure the necessary number of French children has become of the most vital interest to France.

The young bride, who had been married in July, 1914, said to a well known French writer:

"There is one thing which I shall never be able to forgive the Germans, even if my husband should come home from the war safe and sound, and that is the two years of happiness of which they have robbed me."

"But what about me?" a young girl standing close to her exclaimed. "What about us, the young girls of France who have been robbed of our prospects of happiness?"

She was right in taking a gloomy look of the future of her generation of young girls. She had every right to demand that something be done for them by the state, in saving which their prospective bridegrooms have lost their lives.

WAGES AND CAMPAIGN CRIS.

The Steel Trust may not be aware of the fact, but its action in raising the wages of its 200,000 employees has given the lie to the Itae lamented Republican campaign.

That campaign, stated in its simplest form, was an effort to scare the people into voting for Hughes. From stump and platform, from billboard and street car, from advertising page and editorial column, the Republican National Committee shrieked its claim that the re-election of Wilson would bring disaster and that only the triumph of Hughes and the restoration of ancient tariff schedules could save the country from a terrible panic.

Part, a singularly large part, of the voters were misled by this clamor, but enough remained sane to return Mr. Wilson to the White House—and promptly the Steel Trust, greatest of the Hughes-supporting interests, shows how much it fears panic by adding \$20,000,000 to its yearly pay roll. As if this were not enough, the Cotton Mill Trust of New England grants a similar increase to its 33,000 operatives.

It ought to be a cold, cold day before Republican calamity howling deceives any one again.

HIGHER DEMURRAGE RATES.

Washington, Nov. 29.—As an emergency measure to relieve the freight car shortage the Interstate Commerce Commission to-day authorized railroads to establish and maintain until May 1 next a new progressive demurrage scale higher than the present flat rate of \$1 a day. The scale is a compromise between the proposed graduated schedule

in the railroad tariffs recently suspended and the rates suggested by shippers' interests.

The rates will become effective three days after each railroad files with the commission its formal schedule, or probably within a week.

Under the new scale two free days are allowed, and subsequent charges are \$1 for the third day, \$2 for the fourth day, \$3 for the fifth day and \$5 for the sixth and each day thereafter.

Keeping Yourself Well

THE FIRST STEP

Usually the first indication of a lowering of health is found in the bowels and liver. Something goes wrong—we eat too much, or work too hard—and the bowel action weakens or the liver is sluggish. That heavy feeling on arising in the morning, dryness of the throat, with bad taste, a slight headache, dull eyes—all show that food has fermented in the intestines, and that the body is manufacturing poisons instead of good blood.

Clear it all out. Give the stomach and bowels a fresh start. Encourage the liver to go to work. Manalin does all of this, without gripping or weakening. It's the ideal laxative and liver tonic, because it follows Nature's plan, without discomfort, inflammation or forming a habit. Constipation may be overcome with its use.
